

# NESSLE

For Parents

Nessle is a digital health platform that connects new and expectant parents with experts for tailored guidance on all things pregnancy, postpartum, and parenting.

Our platform lets parents easily connect for 1-on-1 sessions, group classes, support circles, and other services with a broad network of trained Nessle specialists--doulas, sleep coaches, parenting experts, maternal wellness coaches, lactation consultants, and more!

When you join Nessle, you can browse for experts and services yourself, or get matched with your perfect, tailored support by our matching concierge, who listens to your specific challenges and recommends 1-3 services to fit your needs and budget. With Nessle, the support and encouragement you need during one of life's most challenging phases will be right at your fingertips. Join us!

## FIND AN EXPERT

### LISTING DIRECTORY

- Log on to [nessle.co](https://nessle.co) to access our highly-filterable **directory** of experts across the world, who offer a wide variety of in-person and virtual services across the full spectrum of support, from fertility through early childhood development.
- If you find an expert who looks like a fit, you can purchase their services and products directly via Nessle, or book **1-on-1 virtual meetings** via our secure, HIPAA-compliant platform (pay-per-session)

## GET FOUND BY YOUR IDEAL EXPERT

### SECURE Q&A PORTAL

- With Nessle, you no longer need to shoulder the burden of searching for, vetting, and connecting with the perfect expert for you. Just submit a question, challenge, or topic to our **secure q&a portal**, and your question will go to our private network of Nessle experts. Within 24 hours, an expert who feels confident in coaching you on your topic will offer you a link to a 1-on-1 private video consult, where you'll get tailored guidance and actionable support via a HIPAA-compliant video platform.

## WHAT DO OUR CUSTOMERS SAY?

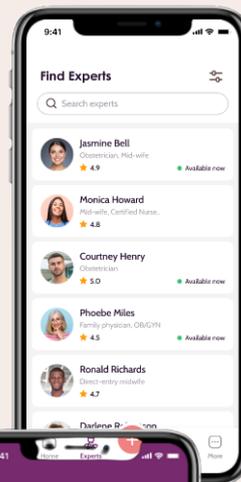

*"[My expert] provided me with the knowledge and the proper verbiage to be my own voice. The conversations and support that I received encouraged me to continue nursing my son when I felt like giving up. Now I'm encouraging moms in my community to nurse and to trust the process. Here I am going on 13 months of nursing."*

-Shayla, mom to Zion

*"Such a comfort and help after I had my baby... [My expert] had helpful suggestions for breastfeeding positions. But what I appreciated the most was how knowledgeable she is and her organized and thoughtful approach to doula-ing."*

- Hannah, mom to Lou
